RECEPTION ACKNOWLEDGMENT WODE AM/FM

On 11/9/89 from 644Am to 715AM according to the program logs you did receive W[illegible] AM/FM. The following is a description of WODE transmitting facilities located in Forks township 1 mile north of Easton PA. on route 115.

AM	Transmitter	BC1H1 Harris 1kw full time 2 tower directional day omnidirectional night
	Frequency	1230khz
FM	Transmitter	FM20H3 Harris 20kw 6 bay dual cycloid antenna circularly polarized ERP 50kw
	Frequency	99.9mhz

Current format oldies.
Audio source material 100% CD'S utilizing Denon CD players.

The QSL Cards for WHXT are no longer available but I am happy to send you the new WODE verification all promotional materials from WHXT are also gone. Radio stations are usually short on space and clean house after a format or call letter change.

Thank you for your report

Steve Boyer
